Full machine details

2011 INDEX MS32 CNC Multi-Spindle Lathe

Available from Swiss CNC, this 2011 INDEX MS32 is a high-productivity CNC multi-spindle automatic lathe designed for accurate series production of complex turned components. The machine is presented in excellent condition and has been well maintained.

Machine Highlights

| Six individually driven motor spindles

Maximum bar capacity	32 mm

| C-axis capability

| INDEX C200-4D CNC control

| Front-opening CNC multi-spindle design

| Multiple CNC-controlled tool slides with fitted tooling shown in the photographs

Included Equipment

| IEMCA SIR-MS32/33/P magazine bar feeder

| KNOLL VRF 500 coolant filtration system

| KNOLL integrated swarf/chip conveyor

| Mist extraction system

Details and availability as listed 24 November 2026. Confirm specification and supply scope before purchase.

| Large selection of collets and tool holders

| Machine manuals

Condition

Excellent condition and well maintained. The machine, guarding, control and ancillary equipment are presented in clean and tidy condition, with the working area and fitted tooling shown in the photographs.

This used INDEX MS32 CNC multi-spindle lathe is suitable for high-volume precision turned-component production where cycle time, repeatability and simultaneous machining capability are essential.

Contact Swiss CNC Ltd for price, current availability, inspection, delivery, installation and further information.

Other machinery visible in the background of the photographs is not included.

Details and availability as listed 24 November 2026. Confirm specification and supply scope before purchase.
