Machine overview

Low-hour 20 mm sliding-head lathe reported to have machined brass only. Supplied with an Alps 3 m magazine bar feeder, LNS swarf conveyor and a large tooling and workholding package.

Year of manufacture	2023
Manufacturer	Star
Machine type	Sliding-Head Lathes
Listing status	Available
Location	United Kingdom
Photograph gallery	73 website photographs

Machine highlights

- 20 mm sliding-head lathe
- Very low hours
- Alps 3 m magazine bar feeder
- LNS swarf conveyor
- Large tooling and workholding package

Full machine details

Machine Overview

Alps 3m Magazine bar feeder, LNS Swarf Conveyor, Large Selection of tooling & work-holding, Very low hours & only machined brass.

Technical Specification & Machine Details

2023 Star SR20JII Type A - Low Hours, Brass-Only Production

Available now is this exceptionally clean 2023 Star SR20JII Type A CNC Sliding Head Lathe, presented in excellent condition with very low operating hours.

Having only machined brass components since installation, this machine has benefited from a light-duty production environment and represents an excellent opportunity for manufacturers seeking a modern, high-performance sliding head lathe without the lead time or investment associated with new equipment.

Details and availability as listed 24 November 2026. Confirm specification and supply scope before purchase.

The machine is supplied complete with an 3m magazine bar feeder and LNS swarf conveyor, providing a turnkey production solution ready for immediate installation.

Designed for precision machining of complex turned parts up to 20mm diameter, the SR20JII Type A combines Star's renowned rigidity, accuracy and reliability with versatile live tooling capabilities, Y-axis functionality and C-axis control.

Key Features

- 2023 Star SR20JII Type A
- Fanuc CNC Control
- 20mm Maximum Bar Capacity
- Y-Axis & C-Axis Capability
- Live Tooling
- 3m Magazine Bar Feeder
- LNS Swarf Conveyor
- Very Low Hours
- Brass-Only Production Since New
- Selection of Tooling & Consumables Included

This machine would be ideally suited to subcontract precision engineering companies, medical component manufacturers, electrical connector producers and high-volume turned part specialists looking to expand capacity with a modern, low-hour machine.

Full specification, photographs and video demonstration available upon request.

Contact Swiss CNC Ltd for further information or to arrange an inspection.

Production Capability

Typical applications can include high-volume precision turned parts, complex bar-fed components and repeat production for subcontract engineering, medical, aerospace, automotive, electronics and general precision manufacturing. Actual suitability depends on the tooling and process required for the component.

Details and availability as listed 24 November 2026. Confirm specification and supply scope before purchase.
